7 Step Business Credit Building Program

Are your business finances affecting your personal finances? What you need is a system to create business lines of credit that use only your business EIN, not your SSN. NO personal credit checks! NO personal guarantees!

We provide you with your own personal Business Credit Coach who knows exactly what each lender wants and will help ensure that you get approved the first time. In fact, our system is so effective that it's GUARANTEED. If you do not acquire \$50,000 worth of business credit with no personal guarantee, we'll give you a 6-month extension of the program to ensure you do.

Your coach will help you get a Dun & Bradstreet account set up at no extra charge. You will have 24/7 access to your DUNS account so you can watch your PAYDEX business credit score climb.

As you know, no one can do this for you. The program requires your participation. Your coach will lay out the tasks that you can quickly and easily perform to get you where you want to go. Once you have \$50,000 in credit lines using only your EIN, the next step is to acquire a line of credit at your preferred bank. We have access to over 2,100 lending sources to get you funds you need.
